

# SPECIES AND EXTINCTION

<https://vimeo.com/600256690>

**How many species are at risk of extinction today?**

---

---

**What do scientists say is causing the sixth mass extinction?**

---

---

**What three reasons explain why this extinction is happening quicker than the previous extinctions?**

---

---

**True or False: Today there are more tigers living in cages than in the world.**

---

---

**What does the word "Endling" mean?**

---

---

---

**True or False: Everything on the planet is connected.**

---

---

**My conclusion:**
